

ImmunoCard STAT! CRYPTO/GIARDIA

Direct Detection of *Cryptosporidium* and *Giardia lamblia*

Can you choose between cost, speed and accuracy?

Using Meridian's ImmunoCard STAT!® *Crypto/Giardia* means not having to compromise at all. Now your lab can generate better results detecting the two most common causes of intestinal parasitic disease in less time and at less cost than traditional methods. Isn't that a simple choice to make?

“Stool immunoassays are very specific and more sensitive than the routine O&P examination... They are also less labor-intensive than the routine O&P examination and require less microscopy training and skill”¹

- Efficient, effective and economical detection of the two most common enteric parasites.
- Results in approximately 10 minutes.
- O&P Sensitivity: 75-80%²
ImmunoCard STAT!® *Crypto/Giardia* Sensitivity: 97-100%³
- Clearly defined test bands for rapid interpretation.
- One card, two results – both reimbursable.
